Directories Make Your Business Visible

Having your business listed in the Top-200 directories is one of the most important foundational services to make your company visible to people searching for your business online.

Google recommends that local businesses be in the Top-100 and the Top-200 directories plus industry related directories businesses marketing outside the local market.

We also submit to large data aggregators to ensure that correct business Information reaches every directory and stays corrected from the business source.

We offer two audits options, a Comprehensive Audit and a Directory Audit (only).

- Start with a Comprehensive or Directory Audit
- Discover Duplicates and Errors
- Optimize existing listings
- Add New Directories to Create Visibility
- Optimize new listings
- Submit to Large Data Aggregators

Services Available:

- Comprehensive Audit Report
- Directory Audit Report
- Build Top100 Directories
