

Introducing Google Shield

*The 1-2-3 Punch Your
Business needs to knock-out
the competition*

Google Shield is All About Keeping Up-To-Date On Google Updates

Google Shield is a compilation of the “Best Practice” tactics, tested for years, to insulate sites from all Google updates. Our Ninja Masters have combined the Syndication Network, Google Drive Stack, and GMB ID Looper to create the “Google Shield”

You now have a service that you can utilize to protect your valuable online assets and no longer have to worry about what Google does next.

Google ID Looper

The second part of Google Shield is adding the ID-Looper standard off-page work to your Google Business Profile (GBP). The GBP ID Looper - Leverages the power of iframes and the @id page in the GBP @id loop to loop for your assets! The ID Looper is added based on how competitive your industry is in your local market.

Syndication Network Strategy

The Most Powerful Way to Market Your Business is our Syndication Network; it gives you an unfair advantage over your competition!

Our Syndication Networks are built to the precise standards set out by “Best Practices” and have been updated over the years to provide more power, authority, and trust for your digital properties.

A Powerful Way to Maximum Exposure is to combine Google Map Strategy along with a Targeted -Drive Stack and Syndication Network for the 1-2-3 Punch to Knock-Out The Competition!

Advanced Drive Stack

BroadMoar’s drive stack is a proprietary process where we use Google’s own properties to add authority to the syndication network, which boosts your content either through blogs, postings, or YouTube videos. The prerequisite is that you must have a Syndication Network. The SN is offered in several configurations based on what we are syndicating.

Get ready to step into the SEO time machine and start ranking like its 2005 again! All the power of our BroadMoar Consulting & the BroadMoar Marketing Agency is done for you. Get an unfair advantage over your competition.
