

Grow Your Chamber of Commerce

A System for Getting Your Members Back!

- Increase The Value You Offer
- Increase Membership 20% or More
- Stop Chasing Members To Renew
- Grow your Community's Value

Chambers of Commerce have a big problem getting business owners to renew their membership, BroadMoar has a fix for that!

BroadMoar understands how business owners think and the problem most of them have with local Chambers of Commerce. Our subject matter expert was a former chamber president for 6 years in Southern California.

Chambers have become another networking group, which is not the purpose of the chamber. The purpose of the chamber is an association of business people to promote commercial and industrial interests in the community.

As a consulting firm, we have talked to thousands of business owners over the past three decades. We have never had a business owner tell us that being a member of the local chamber is part of their growth or marketing strategy.

Let BroadMoar's team help your chamber change that perception! We will help you show business owners the value the chamber can bring to them as local chamber members.

The chamber must make a commitment that your chamber wants to increase the value it has in your community and within its member base.

How do you as a chamber of commerce engage with BroadMoar?

BroadMoar has a proven three-step system to grow, retain, and provide value to chamber members.

- A system for getting new members
- A system to renew members without chasing them
- A system to get members to buy other services

Choose one of the 2 paths we offer:

- 1) Get our 2 Day "GROWTH" 3-Step Strategy Workshop
- 2) Path where the chamber and BroadMoar work together to engage with our value-based offerings for their local business owners.

Let's have a conversation and grow your Chamber of Commerce the correct way, with a real proven strategy created by marketing professional and "Brand Strategist" BobbyGrant. BobbyGrant is a former Apple Marketing Executive, and past chamber president.

Contact your BroadMoar advisor and let's get started building your local chamber.
