

Reputation Marketing System

"BroadMoar's Reputation Marketing System helped us grow our income. We found that moving up almost a 1/2 star increased our monthly revenue 12.8%. I highly recommend this service and the Marketing Automation. It is simply amazing." J. Alvarez, DC

Why You Need our Reputation Marketing System!

"Did you know 97% of consumers 18-34 read online reviews to judge a local business?"

Our **Reputation Marketing System** is the most comprehensive solution for reputation. Our proprietary system was created to give companies a turn-key solution for not only managing their reputation but also building it and marketing their reputation to attract more customers.

99% of Reputation Service Companies Simply Don't Work!

We have investigated each one of them out there... and some are very good in some aspects, but the problem is they don't work because they don't do Reputation Marketing. They are reactive, not proactive.

There is Managing Reputation, some systems do this really well. They can monitor, send alerts, and reports. But that's ALL THEY DO!

Then some companies allow you to build your reputation, they have small forms you fill out or they will send it out where you can get some reviews. But they don't manage. They just build.

And more importantly, there is Marketing Reputation. This is building content online and if you know anything about where the market is going right now, it's all about fresh user content.

So, we market these reviews in images and with videos. Also in text on Flickr, Facebook, Twitter, LinkedIn, and all around the web.

So, it is not just one aspect, it's all three and this is why 99% of all reputation service companies don't work for most businesses.

"92% of consumers now read online reviews..."
