- Work From Home
- Lowest Start-up Cost
- No Employees Needed
- Make Extra Income for a House or Car Payment
- Complete Training and 12 Month Mentoring
- Learn the Costly Mistakes and Pitfalls to Avoid

*"I bought the "Thrifting Micro-Biz". I work this as a stay-at-home mom working around the children's school and sporting events. I have over 400 items in inventory, selling many items every single week. Once you learn the program, it is so simple to do. In my best month, I made over 3,000 in profit. Thanks for teaching me the correct way to do thrifting. **Stephanie B.**"*

Start Your Own "Thrifting" Micro-Business Today!

How Our Micro-Business Got Started:

Over the past 10 years, I have gotten calls and met many incredible people with the desire and passion to become business owners but lack the funds and the knowledge of how to get started. At BroadMoar, we have been helping business owners grow their businesses for over 20 years. We see a lot of companies offering courses to train you to build a business or companies that all you do is recruit people to a multi-level pyramid model and most of those lack one thing...It's not your business! People want a business of their own.

So We Created It!

Our Micro-Business Program, we not only teach you the operations of your business, we help with products, tools, methods and services depending on the business you choose and most of all, regular mentoring calls to help you along the way. What our owners like best is avoiding costly mistakes.

Two-Day Training Workshop in Greenville, SC or Your Location with Multiple Participants.

- Learn to **Find Your Product Niche**
- Learn about Fabrics and Garment Quality
- Where, When and How to Buy the Items to Resell
- Where to Resell Your Inventory
- How to Write Ad Copy for Sites
